

STATE BANK AND  
COUNTY FUNDSPRESIDENT RICKEY MEETS COM-  
MISSIONERS—WILL SETTLE  
ON MONDAY.

President T. B. Rickey of the State Bank and Trust Company arrived here from Goldfield last night in pursuance to the request of the County Commissioners for his presence before them. There was a special meeting of the board last night, at which there were present only the County Commissioners, Mr. Rickey and District Attorney McCarran.

Mr. Rickey knew what he had come for, so that there was little time wasted in preliminaries. The Commission got down to work, and it was up to the president of the bank to tell what he intended to do with regard to restoring the funds of the county on deposit to the custody of the treasurer. The precedent of the Nye and Ormsby County Bank was before the board. That bank had agreed to pay back the money, or give a bond that it would be paid before the expiration of the treasurer's term of office.

The conference was unmarked by any feeling on the part of anyone present. Mr. Rickey stated that he was making the best arrangements possible for the speedy opening of his banks and it was made evident to him that there was no intention of harassing him or embarrassing him in his work. He asked that he be given until Monday to straighten the matter out, which time was readily granted, and the board adjourned until that time, the banker giving the assurance that the matter would then be satisfactorily settled.

GOLDFIELD INJUNCTION  
IN THE SUPREME COURTSHERIFF INGALLS TO BE CALLED  
TO TESTIFY TO PEACEFUL  
CONDITIONS

Affidavits Read Charging All Labor Troubles in the Southern Camp to Union Which Flaunted the Red Rag of Anarchy and Cursed the Flag of the Country.

(By Associated Press.)  
CARSON, Jan. 11.—The United States Court here today took up the matter of the injunction proceedings against the Miners' Union of Goldfield, in which the Mine Owners' Association asks for an injunction against the union. Affidavits covering many pages on the part of the operators were read to the court today by the attorney for the operators, and all tended to show that the union in Goldfield has been a prime factor in all the labor troubles of the camp since its discovery.

They accuse the unions of countenancing the action of high-graders and also of protecting them by their fight against the change room system, adopted by the operators for the protection of their high grade ores. Many mottoes on the walls in the union hall at Goldfield were quoted in the affidavit of Geo. Wingfield. Among those introduced are: "If Pettibone is convicted of murder, for every hair in his head we will have the head of a capitalist." "To hell with the constitution." "To hell with the flag."

The affidavit states that the character of the meetings held in the southern camp and the fact that the flag of the country is ignored entirely, and that the red flag of anarchy has taken its place at all parades, and gatherings of the men. The case will be taken up Monday, when it is expected that Sheriff Ingalls and other peace officers will be called to prove the contention that the troops are unnecessary, that Goldfield is peaceful, and in no need of an injunction or other measures.

Shift the Scene  
to the Capital City

(Special to the Bonanza.)  
GOLDFIELD, Jan. 11.—There will be a shifting of the scenes tomorrow from here to Carson. The majority of the legislators and the delegation of business men appointed by President Sprague of the Chamber of Commerce will leave for the capital in the morning. The extra session convenes on Tuesday, and the men of Goldfield, outside of the legislators, are going to be on the field to urge the passage of favorable legislation, to be on hand to inform those of the Senate and House, who are not already informed upon the conditions of affairs in this camp. These men can speak from experience. There will be also at Carson representatives of the Western Federation of Miners to present their side of the case, and the whole matter, from all standpoints, will be threshed out by the solons in council.

The men who were brought here from Salt Lake are all at work, notwithstanding reports to the contrary that they had been taken from the mines and enrolled under the banner of the federation. The mine owners and their representatives declare that there has not been a single defection from the ranks, and that there is not likely to be, for the reason that the men are only too well satisfied with their surroundings and the character of work that they are to perform. As far as they not knowing that there was a strike here, that statement is characterized as nonsense by the operators, for the entire country knows that there is trouble, and that the mines were closed down because of it.

The troops are quartered here in the Merchants hotel, and are pleased with the change from the bleak hillside where the camp was first established.

Big Cash Gains In  
New York Banks

(By Associated Press.)  
NEW YORK, Jan. 11.—The speculative operators in stocks today seemed to hesitate between two opinions of the immediate outlook for value, with the result that the market was somewhat restricted in volume and irregular in price movement until the final uprise caused by the bank statement.

The re-establishment of the comfortable surplus of upwards of \$6,000,000, however, exceeded the expectations of even the hopeful class. The \$15,300,000 gain in cash shows that the return of hoarded funds has been unexpectedly heavy. Bonds were irregular.

Water is still being poured on the smoldering skeleton.

RUEF IS GAY  
WITH FATES

Former Boss Says Monday's Conference With Langdon Will Determine Many Important Matters.

(By Associated Press.)  
SAN FRANCISCO, Jan. 11.—"My conference with District Attorney Langdon on Monday afternoon will determine my future course of action," said Abraham Ruef to the Associated Press today, when interviewed at the county jail. "Monday will decide the fate of the nation." By "the fate of the nation," it was evident that he meant that on Monday there would be held the final conference between himself and the district attorney, at which time his own fate and that of the prosecution of the public service corporation officials charged with bribery would be finally decided. Asked about the reports that a serious breach had occurred between himself and the prosecution yesterday, Ruef said: "No one was present at that conference but Langdon, the special agent and myself."

"It is admitted that none of these gave out the slightest intimation of what took place. The logical conclusion is that the newspapers don't know what they are talking about, which isn't unusual. I was present at that conference and I know that nothing was said that would bear out the statements published this morning."

WILL FOLLOW UP  
THE LAND FRAUDS

(Associated Press.)  
WASHINGTON, Jan. 11.—It was officially stated by the Department of Justice today that there would be no cessation in the prosecution of the land frauds cases in Colorado and other Western States, although the decisions of Judge Lewis made it necessary to change the procedure in some respects. It was also stated that an arrangement had been made by which a strict division of work in these cases between the Interior Department and the Department of Justice had been laid down, so that hereafter the Department of Justice will undertake no preliminary investigation, but such work will be done by the Interior Department, which will have control of the cases until they are fully ready for prosecution. When these have been certified to, the Department of Justice will have full control and all negotiations must be conducted with the department and its officials.

OHIO OVER PRESIDENTIAL  
NOMINATION.

(By Associated Press.)  
CLEVELAND, Jan. 11.—The first stroke of the Foraker followers here was made today, when a mass meeting committee was selected to displace the "regular" Republican county executive committee. The question of the legality of the committee selected, as against the "regular" committee, said by Forakerites to be a Taft organization, will not be placed in the hands of the county board of elections. The claims of the so-called Roosevelt committee, the third element in the local situation, also rest in the same situation. It will be the duty of the board to determine which committee is lawful and of authority to act for the party in this county. The board has until next Wednesday to decide upon the merits of each claimant. Resolutions condemning the "regular" committee and one-man power in the party were adopted.
